Text 4. The Making of *Jurassic Park*

You are going to watch part of a documentary about how the film *Jurassic Park* was made. Listen to the text and choose the correct answer for each item.

a b c

22. Why didn't Spielberg make all his dinosaurs full-size? Because...
- he wanted to make them different from the King Kong model.
 - it was his wishful thinking.
 - it would have been very expensive.
23. Why did Spielberg go to the great physical effects maestros?
- He himself thought of the possibility.
 - Someone suggested it was a good idea.
 - It was in the film contract.
24. What did the initial approach for the dinosaurs in the film rely on? It relied on...
- combining miniatures which moved with full-size robots.
 - using robotic movable miniature reproductions.
 - filming reptiles and altering the scenes with computers.
25. At what stage was work on the film by 1991?
- Technical problems had delayed the making of the film.
 - They had not still found the special effects supervisor.
 - Work had already started and was in full progress.
26. What was the most important first step taken regarding the dinosaurs?
- Perfecting their performance in each scene.
 - Making them look true to life.
 - Giving them a likeable appearance.
27. What was the reaction of people who visited the set?
- enthusiastic
 - unpredictable
 - indifferent
28. In what way did the "animatics" sequences help? They helped to...
- block out scenes they didn't like in the final version.
 - make it easier for the actors to remember their lines.
 - calculate timing and represent scenes to show how they would go.
29. How did Spielberg want dinosaurs to be portrayed?
- As naturalistic creatures.
 - As frightening monster-like creatures.
 - As the reptilian stereotypes people expected.
30. As a result of some information from an expert, what happened to the dinosaur sticking out its tongue?
- It was eliminated from the film.
 - It suffered a genetic mutation.
 - It was exploited further throughout the film.
