ECONOMY AND INDUSTRY

In this part of the test we will have a conversation about **ECONOMY AND INDUSTRY**. I am going to ask some questions that you are expected to answer. Try not to use monosyllabic answers, but to build up your responses; please show interest and take active part in the conversation.

1. Do you believe, as many do, that things were better in the past regarding the economy?
2. Can you explain why the rich are getting richer and the poor are getting poorer?
3. Describe how industries which have fallen into decline can be protected for heritage reasons?
4. Do you think that happiness is possible outside the work, earn, spend economic cycle?
5. How can your domestic economy have positive implications on your local economy?
6. How is your national economy influenced by what is happening on a global economic scale?
7. Is the revival of cottage industries just a fad, a passing fashion, or a realistic employment option?
8. What can be done to discourage the relocation of industries to Third World countries?
9. What is to become of industries based on fossil fuel consumption in the future?
10. What new types of industry have cropped up over the last few decades?
11. Why is it said that we are all at the mercy of multinational companies?
12. Will the Third World ever be able to survive without international aid?
13. How do you see the economic situation in Spain compared to other EU countries?

THE LAW

In this part of the test we will have a conversation about THE LAW. I am going to ask some questions that you are expected to answer. Try not to use monosyllabic answers, but to build up your responses; please show interest and take active part in the conversation.

1. What do you believe are the most common problems that people have with the law?
2. What could lead you to believe that not everyone is equal in the eyes of the law?
3. In what way should the application of the law vary depending on the age of the criminal?
4. Under what circumstances would you take the law into your own hands?
5. Under what circumstances would you need the services of a lawyer?
6. In what way can the price of legal services affect the way we defend our rights?
7. In what way should the law act in the face of technological piracy?
8. What is your opinion about downloading materials from the internet illegally? Up to what point is it a crime?
9. What illegal acts do you believe should be made legal?
10. What law or laws do you believe should be introduced and why?
11. What crimes do you think will increase in the future?
12. To what extent is there an excess of laws in your country?
13. How would law enforcement change if the police force were not armed?

THE MEDIA

In this part of the test we will have a conversation about THE MEDIA. I am going to ask some questions that you are expected to answer. Try not to use monosyllabic answers, but to build up your responses; please show interest and take active part in the conversation.

1. What regular contact do you have with the media?
2. Explain the importance of being up to date regarding current affairs?
3. How has the Internet changed our view of the world around us?
4. In what ways have the media been able to influence political decisions?
5. In what ways could the media and advertising become separate entities?
6. To what extent does the media contribute to a more egalitarian society?
7. What are some of the negative effects of the media on society today?
8. What are the possible results of children having too much access to the Internet?
9. What can be done to ensure that all citizens have equal access to the media?
10. What can be done to make the communication media more trustworthy?
11. What can be said in favour of selective censorship?
12. Where do you see the media ten years from now?
13. Why do the media not cover all aspects of life to the same extent?
