#### BELIEFS

Seeing is believing. Or is it? Of course we, as human beings, are constantly searching for knowledge, it's in our nature. We need answers. But sometimes we need (or we think we do) to rely on beliefs to find an explanation for things that cannot be explained otherwise. This, for many people, is the origin of religions.

**Discuss the concept of religion** and its role in our society. You may use the following ideas if they are of any help:

- The afterlife.
- What is the human being made of? Are we different from other animals?
- Where do you stand on this issue? Are you a religious person yourself?

You can take notes during preparation time. You can only use the notes as a guideline.  
The test will be recorded.

**Preparation time: 4 minutes**

**Presentation time: 5 minutes**
