WRITING SKILL (10 POINTS)

PART 1 (5 points)

You are a hotelier who has a property in the mountains. This is a review in a travel community website from a customer who has stayed in your lodging:

Accommodation is reasonable allowing for the fact that their ideas of cleanliness differ somewhat from those of mine (mould and scum in the shower amongst other things). Air con consists of a wall mounted unit which does not have a chiller element so merely acts as a fan. Utterly useless in temperatures above 30 degrees. Besides, taps leaked; tub needs to be resurfaced. The room looked like decorated by grannies. Will not return next year.
