TASK 1

In view of the increase in environmental disasters in Spain due to climate change, the company you work for plans to train its workforce on tornado preparedness. Extract the most relevant information from the document below and draft a memo with the 10 top-priority measures for an anti-tornado protocol.

Note: Mediation exercises require you to write a short text that goes to the point. Try not to reproduce exact sentences from the input text. Don't go over the word limit.

Be Red Cross Ready
Prepare so you can protect.

Preparedness Checklist

Find Shelter Locations from High Winds in the Places Where you Spend a lot of Time.

- Find a safe room built to withstand high winds. The next best protection is a small room with no windows on the lowest level of a sturdy building.
- Mobile, manufactured, trailer homes and recreational vehicles (RVs) are not safe in high wind events. Plan ahead by finding a sturdy building to shelter in before a tornado watch or warning.

Practice Tornado Drills

- With your entire household, practice moving quickly to the safe locations that you identified.
- Create a personal support team of people you may assist and who can assist you.
- If you live in a mobile home, practice going to a safe place.

Plan to Stay Connected

- Sign up for free emergency alerts from your local government.
- Plan to monitor local weather and news.
- Have a backup battery or a way to charge your cell phone.
- Have a battery-powered radio during a power outage.

Learn Emergency Skills

- Learn First Aid and CPR.
- Be ready to live without power. Utilities may be offline. Be ready to live without power, gas, and water. Plan for your electrical needs, including cell phones and medical equipment. Talk to your doctor. Plan for backup power.

Gather Emergency Supplies

- Gather food, water and medicine. Stores and pharmacies might be closed. Organize supplies into a Go-Kit and a Stay-at-Home Kit.
- Go-Kit: at least three days of supplies that you can carry with you. Include backup batteries and chargers for your devices (cell phone, CPAP, wheelchair, etc.)
- Stay-at-Home Kit: at least two weeks of supplies. Stores and pharmacies might be closed.
- Have a 1-month supply of medication in a child-proof container and medical supplies or equipment.
- Keep personal, financial, and medical records safe and easy to access (hard copies or securely backed up). Consider keeping a list of your medications and dosages on a small card to carry with you.
