

## MODELO

### TAREA DE PRODUCCIÓN

#### PRIVACY IN THE WORKPLACE

Technology has enabled employers to monitor virtually all workplace communications made by employees using computers -- including use of the Internet and company e-mail. Give a presentation about the way technology is affecting the workforce in terms of workers' privacy.

You can use these ideas or add any other you consider relevant:

- Employers' need to control and monitor the use of ICT
- Violation of workers' privacy rights?
- Higher employee productivity

You can take notes during preparation time. You can only use the notes as a guideline.  
The test will be recorded.

**Preparation time: 4 minutes**

**Presentation time: 5 minutes**

## MODELO - CANDIDATO A

### TAREA DE COPRODUCCIÓN

#### ARTIFICIAL INTELLIGENCE

Technology is an essential part of our lives and our development as human beings. Artificial Intelligence (AI) is one such technology that has gained momentum and hype. Discuss with your partners the advantages and disadvantages of that technology.

You can use these ideas or add any other you consider relevant:

- Right decision making
- Machine dependency
- Replaces humans

You can take notes during preparation time. You can only use the notes as a guideline.  
The test will be recorded.

**Preparation time: 3 minutes**  
**Interaction time: 7-8 minutes**

## MODELO - CANDIDATO B

### TAREA DE COPRODUCCIÓN

#### ARTIFICIAL INTELLIGENCE

Technology is an essential part of our lives and our development as human beings. Artificial Intelligence (AI) is one such technology that has gained momentum and hype. Discuss with your partners the advantages and disadvantages of that technology.

You can use these ideas or add any other you consider relevant:

- Helping in repetitive jobs
- Machine dependency
- Can work 24/7

You can take notes during preparation time. You can only use the notes as a guideline.  
The test will be recorded.

**Preparation time: 3 minutes**  
**Interaction time: 7-8 minutes**
