

NIVEL AVANZADO C2

TAREA 1

Accessibility

You are concerned about the accessibility of your city for people with disabilities. On your everyday walk to work you have witnessed many irregularities that would make it impossible for someone to navigate the city in a wheelchair. Send an email to the City Council to bring this issue to their attention. Your text should be written in a formal register. (300 words)

TAREA 2

Exploring Mars

Your favourite science Youtube Channel posted a video about the exploration of Mars. The comments include the following:

"A lot of guys are talking about landing on Mars because, they say, it would be really important in order to learn a lot more about our planet. Going to Mars actually makes no sense to me because we know a lot about Earth and we still treat our fragile planet in a really bad way. I think we should spend all the money which is going to Mars to learn about Earth. I mean, that little knowledge we get from Mars makes absolutely no sense to me.

Also, the time we need to study Mars and use that information for our benefit is... is too long. Our planet needs our action now, I mean, we don't have much time to fix it. I think science guys just need to prove that they can land on Mars, but they are not really interested in solving our problems here on Earth."

Write a response in the form of a comment in which you discuss the different ideas outlined in the fragment above. Your comment should be in an informal register. (250 words).
