TASK 1

TEST 1

**NATURE DEVASTATION
AND PANDEMICS**

© www.pixabay.com

Some experts have concurred that the loss of biodiversity is correlated with the emergence of zoonotic infectious diseases like SARS-CoV-1 or, more recently, Covid-19. Degrading or destroying natural habitats coupled with human encroachment into species-rich habitats increase contact rates between rodents or bats and humans, thus promoting the spread of new diseases.

Talk about:

- The process through which human actions bring about biodiversity loss.
- Environmental policies needed to prevent future pandemics.

You have up to 5 minutes to prepare your talk. You can take notes or make a brief plan of what you are going to say. Talk to the examiners for about 3 – 4 minutes. You can use your notes during your talk, but you cannot read them aloud. Your production will be recorded.

TASK 1

TEST 2

SHARENTING

Sharenting or *oversharenting* is defined as parents' overshare of social media content based on their offspring. A survey conducted in Australia found that 90% of parents admitted to oversharing, which can result in children having trouble to separate their own identity from the online persona created on their mum's and dad's social networks. Crimes like digital kidnapping – the theft of a minor's photos- have also been linked to sharenting.

Talk about:

- How legislators and courts can protect children's privacy rights.
- Unforeseen consequences of *sharenting*.

TEST 1

DEEPFAKES

www.shutterstock.com · 1447532942

©shutterstock.com

We are currently witnessing the bubbling-up of deepfakes. Deepfake is a type of AI used to stitch somebody into a video or photo they were never actually in. By using algorithms and decoders, they can create totally convincing but entirely fictional videos and photos.

Share your ideas on the subject with your partner(s). Express and justify your opinions while referring to the following:

- How deepfakes could be used to wreak havoc among the population.
- Ethical boundaries to be set around AI.

You have 2 minutes for individual preparation. Then talk to your partner(s) for 3 to 4 minutes if there are two candidates or for 5 to 6 minutes if there are three. Your production will be recorded.

TEST 2

HEALTHCARE

©pexels.com

Healthcare provision is instrumental to the society's well-being. However, not every country provides their citizens with universal healthcare. The USA, for instance, notoriously lacks universal coverage, whereas in Europe it has grown out to be an inalienable right.

Share your ideas on the subject with your partner(s). Express and justify your opinions while referring to the following:

- Vested interests in countries with no public healthcare.
- How governments could make public healthcare more cost-efficient.

You have 2 minutes for individual preparation. Then talk to your partner(s) for 3 to 4 minutes if there are two candidates or for 5 to 6 minutes if there are three. Your production will be recorded.
