INGLÉS

PRODUCCIÓN Y COPRODUCCIÓN DE TEXTOS ESCRITOS

TASK A

Last year your regional government introduced a stricter anti-littering ordinance to keep beaches clean. Additional staff were hired in order to watch beachgoers and fine those caught littering. One year after these measures were first implemented, the government asks you, as an environmental advisor, to write a report in order to find out how effective the new policy has been.

You can assess the following:

- how clean beaches are
- cost-effectiveness
- satisfaction level of users
- recommendations for the future.

Write a report of about 300 words following the instructions above.

TASK B

Somebody has posted the following message on their Facebook wall:

“Many people wonder why couples break up so early and easily. Here's the deal: the reason relationships don't last nowadays is that there are people out there always looking for the next best thing, when they have a good thing right in front of them. Sex has become so easy to get. Love is harder to find. They are just looking to get laid. Social media plays a part as well in relationships. Call me crazy and dumb for it but I think sometimes dudes – and girls too - just screw up the relationship cause they think they're gonna find an Instagram model. They want to keep their options open. Most relationships today are just based on superficial bullshit anyway. These are not relationships. It's just two people using each other to show off.”

Follow the thread and write a response to the message above giving your opinion on the subject. Write about 150 words.
